Visy Logistics January Fuel Levy Update - Linehaul

Dear valued customer,

Visy Logistics have reviewed the current Linehaul fuel levy applied to our customers, based on the average Terminal Gate Prices obtained via the AIP website - <http://www.aip.com.au/>

Using these calculations of average TGP (less GST) versus fuel usage, the Linehaul fuel levy effective January 1st 2015 will be – 8.6%

At all times Visy Logistics continue to help reduce your fuel costs and monitor these closely on a monthly basis to provide the best result possible.

Sincerely,

Kylie Nicol
